All three of my children absolutely loved it. Once you enroll your kid, you automatically become part of the Little Lambs family.

Both of my boys went there. Now 18 and 16 years old. They loved it and received a very good foundation.

Loved it! I have five kids and all 5 went there. We were a Little Lambs family for 13 years! I still talk to most of the teachers and my children are still friends with their old classmates...even my 21 year old.

I went to Little Lambs and I have very fond memories. My grandparents, who sent me, love it there too. I even remember my teacher's name so, they clearly made a good impression on me because I turned 20 years old this year.

Both of my kiddos went to Little Lambs, and we loved it! My daughter graduated 2 years ago and still talks about her teachers there on a regular basis. It's not just a preschool, it's a family!

Both of my kids went there and 9 years later my nieces are not attending Little Lambs. We have nothing but great things to say. It really does feel like part of our family!
